分數	100.00分 (滿分為100.00分)

試題1

答對

得分 9.00/配分 9.00

標示試題

What changes are made when you add a second Activity to your app by choosing File > New > Activity and an Activity template? Choose one:

只能選擇一個：

- ☐ a. The second Activity is added as a Java class. You still need to add the XML layout file.
- ☐ b. The second Activity XML layout file is created and a Java class added. You still need to define the class signature.
- ☒ c. The second Activity is added as a Java class, the XML layout file is created, and the AndroidManifest.xml file is changed to declare a second Activity. ✓
- ☐ d. The second Activity XML layout file is created, and the AndroidManifest.xml file is changed to declare a second Activity.

你答對了!

試題2

答對

得分 8.00/配分 8.00

標示試題

What happens if you remove the android:parentActivityName and the <meta-data> elements from the second Activity declaration in the AndroidManifest.xml file? Choose one:

只能選擇一個：

- ☐ a. The second Activity no longer appears when you try to start it with an explicit Intent.
- ☐ b. The second Activity XML layout file is deleted.
- ☐ c. The Back button no longer works in the second Activity to send the user back to the main Activity.
- ☒ d. The Up button in the app bar no longer appears in the second Activity to send the user back to the parent Activity. ✓

你答對了!

試題3

答對

得分 8.00/配分 8.00

標示試題

Which constructor method do you use to create a new explicit Intent? Choose one:

只能選擇一個：

- ☐ a. new Intent()
- ☒ b. new Intent(Context context, Class<?> class) ✓
- ☐ c. new Intent(String action, Uri uri)
- ☐ d. new Intent(String action)

你答對了!

試題4

答對

得分 9.00/配分 9.00

標示試題

In the HelloToast app homework, how do you add the current value of the count to the Intent? Choose one:

只能選擇一個：

- ☐ a. As the Intent data
- ☐ b. As the Intent TEXT_REQUEST
- ☐ c. As an Intent action
- ☒ d. As an Intent extra ✓

你答對了!

試題5

答對

得分 8.00/配分
8.00

標示試題

In the HelloToast app homework, how do you display the current count in the second "Hello" Activity? Choose one:

只能選擇一個：

- ☐ a. Get the Intent that the Activity was launched with.
- ☐ b. Get the current count value out of the Intent.
- ☐ c. Update the TextView for the count.
- ☒ d. All of the above. ✓

你答對了!

試題6

答對

得分 8.00/配分
8.00

標示試題

If you run the homework app before implementing onSaveInstanceState(), what happens if you rotate the device? Choose one:

只能選擇一個：

- ☐ a. The EditText no longer contains the text you entered, but the counter is preserved.
- ☐ b. The counter is reset to 0, and the EditText no longer contains the text you entered.
- ☒ c. The counter is reset to 0, but the contents of the EditText is preserved. ✓
- ☐ d. The counter and the contents of the EditText are preserved.

你答對了!

試題7

答對

得分 9.00/配分
9.00

標示試題

What Activity lifecycle methods are called when a device-configuration change (such as rotation) occurs? Choose one:

只能選擇一個：

- ☐ a. Android immediately shuts down your Activity by calling onStop(). Your code must restart the Activity.
- ☐ b. Android shuts down your Activity by calling onPause(), onStop(), and onDestroy(). Your code must restart the Activity.
- ☒ c. Android shuts down your Activity by calling onPause(), onStop(), and onDestroy(), and then starts it over again, calling onCreate(), onStart(), and onResume(). ✓
- ☐ d. Android immediately calls onResume().

你答對了!

試題8

答對

得分 8.00/配分
8.00

標示試題

When in the Activity lifecycle is onSaveInstanceState() called? Choose one:

只能選擇一個：

- ☒ a. onSaveInstanceState() is called before the onStop() method. ✓
- ☐ b. onSaveInstanceState() is called before the onResume() method.
- ☐ c. onSaveInstanceState() is called before the onCreate() method.
- ☐ d. onSaveInstanceState() is called before the onDestroy() method.

你答對了!

試題9

答對

得分 8.00/配分
8.00

標示試題

Which Activity lifecycle methods are best to use for saving data before the Activity is finished or destroyed? Choose one:

只能選擇一個：

- ☒ a. onPause() or onStop() ✓
- ☐ b. onResume() or onCreate()
- ☐ c. onDestroy()
- ☐ d. onStart() or onRestart()

你答對了!

試題10

Which constructor method do you use to create an implicit Intent to launch a camera app?

答對

得分 9.00/配分
9.00

🚩 標示試題

只能選擇一個：

- ☐ a. new Intent()
- ☐ b. new Intent(Context context, Class<?> class)
- ☐ c. new Intent(String action, Uri uri)
- ☒ d. new Intent(String action) ✓

你答對了!

試題11

答對

得分 8.00/配分
8.00

🚩 標示試題

When you create an implicit Intent object, which of the following is true?

只能選擇一個：

- ☐ a. Don't specify the specific Activity or other component to launch.
- ☐ b. Add an Intent action or Intent categories (or both).
- ☐ c. Resolve the Intent with the system before calling startActivity() or startActivityForResult().
- ☒ d. All of the above. ✓

你答對了!

試題12

答對

得分 8.00/配分
8.00

🚩 標示試題

Which Intent action do you use to take a picture with a camera app?

只能選擇一個：

- ☐ a. Intent takePicture = new Intent(Intent.ACTION_VIEW);
- ☐ b. Intent takePicture = new Intent(Intent.ACTION_MAIN);
- ☒ c. Intent takePicture = new Intent(MediaStore.ACTION_IMAGE_CAPTURE); ✓
- ☐ d. Intent takePicture = new Intent(Intent.ACTION_GET_CONTENT);

你答對了!
